

# Welcome to SICSS-Edinburgh 2005

Tuğrulcan Elmas / Tj

THE UNIVERSITY of EDINBURGH  
**informatics**

# Objectives

- Finish a Computational Social Science Project together & enjoy it
- Learn how to:
  - Come up with ideas
  - Apply suitable methods
  - Understand the strengths, limitations and risks
- Foster Interdisciplinary Collaborations
- Be part of the CSS community

# Program TL;DR:

## First Week

- 10:00-13:00 Lecture
- 12:30/13:00-14:00 Lunch
- 14:00-16:00 Lecture 2
- 16:00-17:00~ Research Talk

## Friday:

- 12:30 Break
- 13:00 Lunch & Discussion
- 14:00 Group Formation

## Second Week

- Monday: 10:00-14:00 Group work 14:00 Talk by Marion 15:00 Q&A
- Tue/Wed/Thursday: Group work until 16:00, Speakers later if any
- Friday: 10:00 Presentations
- Friday: 14:00 Viva

# Courses

**Monday:** Intro & Data Collection

**Tuesday:** Data Analysis & Scaling

**Wednesday:** Network Analysis

**Thursday:** Text Analysis & Classification

**Friday:** Ethics, Bias & Fairness

# Activities

**Monday:** Activity at Evening

**1<sup>st</sup> Friday:** Discussion Group & Pizza

**Saturday:** Tour (depends on the weather)

**2<sup>nd</sup> Friday:** Group presentations & Eddie's Viva

# Me

- B.S. 2017: Bilkent Uni. Computer Engineering, Türkiye
- Ph.D. 2022: EPFL, Switzerland
  - “The Role of Compromised Accounts in Social Media Manipulation”
- Postdoc 2024: Indiana University Bloomington, USA
  - Observatory on Social Media Lab
- Assistant Professor / Lecturer: University of Edinburgh
  - SMASH (Social Media Analysis & Support for Humanity) Lab
  - Text Technologies in Data Science
  - Evidence, Argument & Persuasion in a Digital Age
  - Computational Social Science (next year)

# Organizers & Lecturers

Tuğrulcan Elmas  
(Informatics)

Björn Ross  
(Informatics)

Uğur Özdemir  
(Political Science)

Tod Van Gunten  
(Sociology)

Walid Magdy  
(Informatics)

Zee Talat  
(Informatics)

Artemis Deligianni  
(Psychology)

Aybüke Atalay  
(Political Science)

# Python vs. R?

# Python vs. R?

**It will be a mix...**

**Data Collection: Python**

**Data Analysis: Python with R Supplement**

**Scaling: R**

**Network Analysis: R**

**Text Analysis & Classification: Python**

**Project: Up To You**

# Environment

Cursor:

- + AI
- + Free for students
- New
- May be hard to install

Colab:

- + No installation
- + AI
- May be slow
- May crash

RStudio:

- + Easy
- No AI 😞
